

Hello, Pip!

Look, point, and say hello.

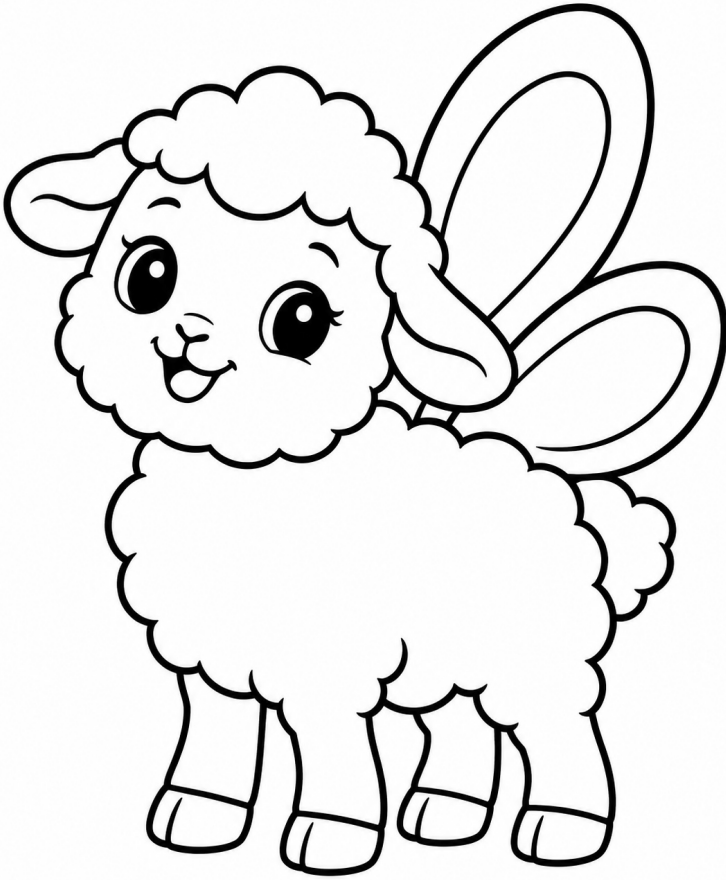

Where are Pip's eyes? Can you find his wings?

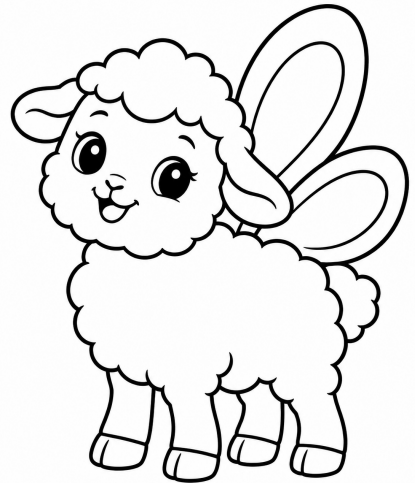

Grown-up play: For babies, name what you see. For toddlers, invite pointing, waving, or coloring. Try one little activity at a time.

Big and little

Point to the big sheep. Now find the little sheep.

BIG

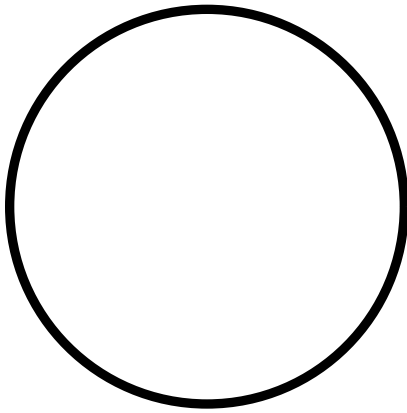

little

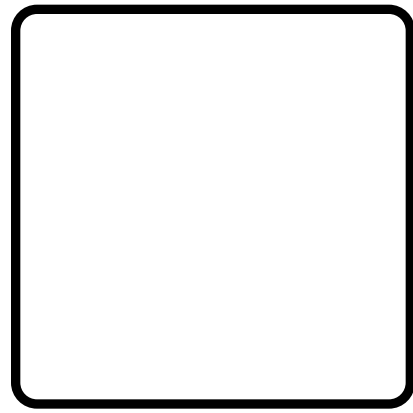

Grown-up play: Name “big” and “little” while pointing. Try stretching your arms wide for big and bringing your hands close for little.

Meet the shapes

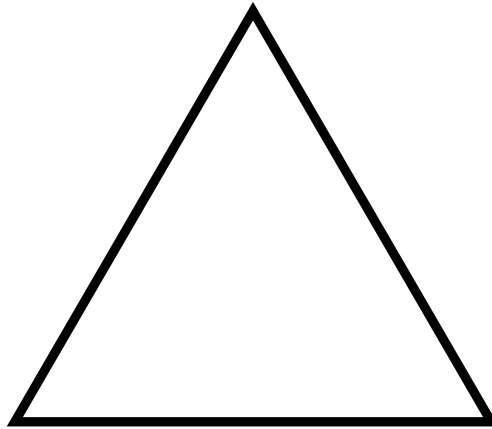

Look at each shape. Find a circle together.

circle

square

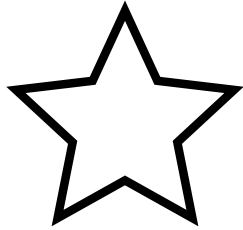

triangle

Grown-up play: Say one shape name at a time. Point together, follow an outline with a finger, or color a shape when ready.

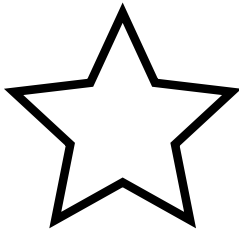

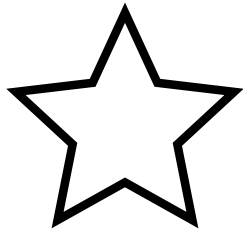

One, two, three

Touch each star as you count together.

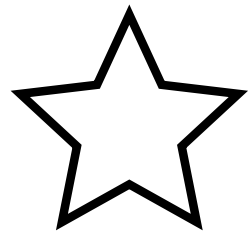

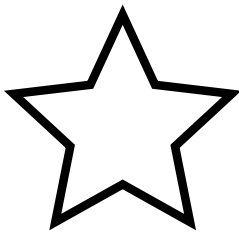

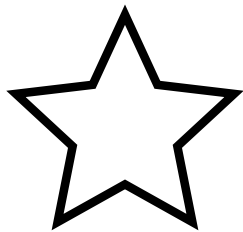

1

2

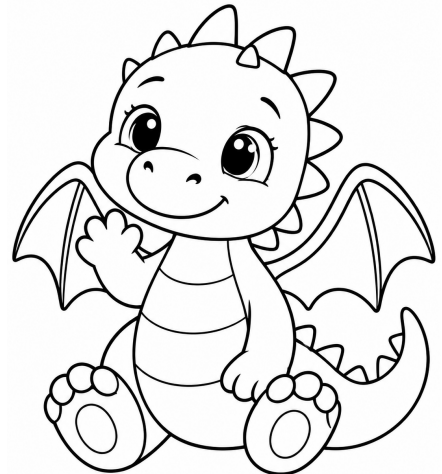

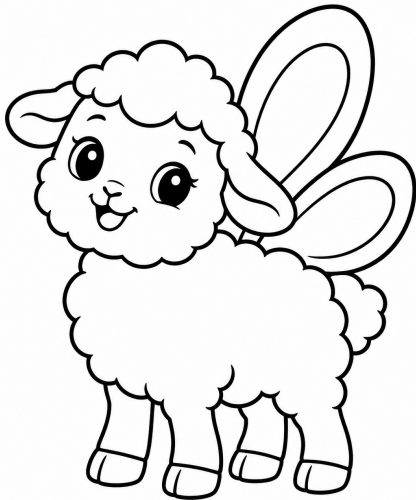

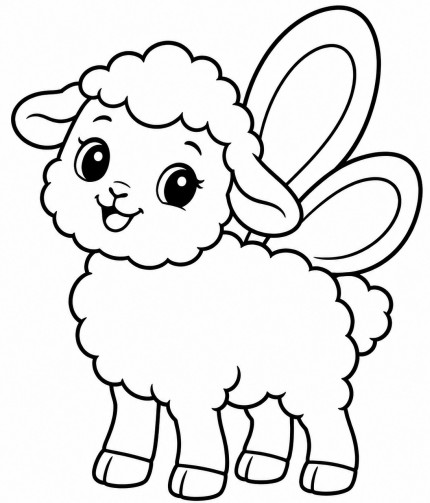

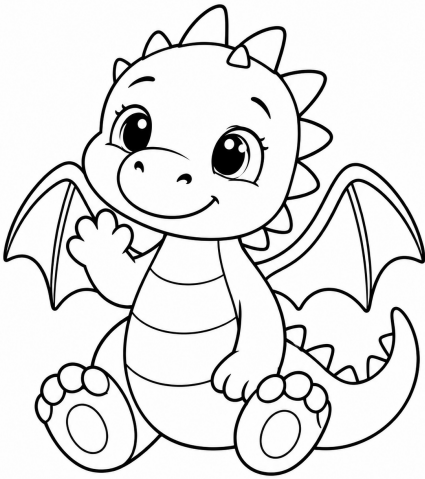

3

Grown-up play: Count slowly: “One ... two ... three.” Point to each star once. Babies can look and listen; toddlers can join in.

Match our friends

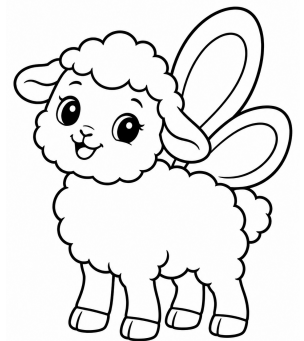

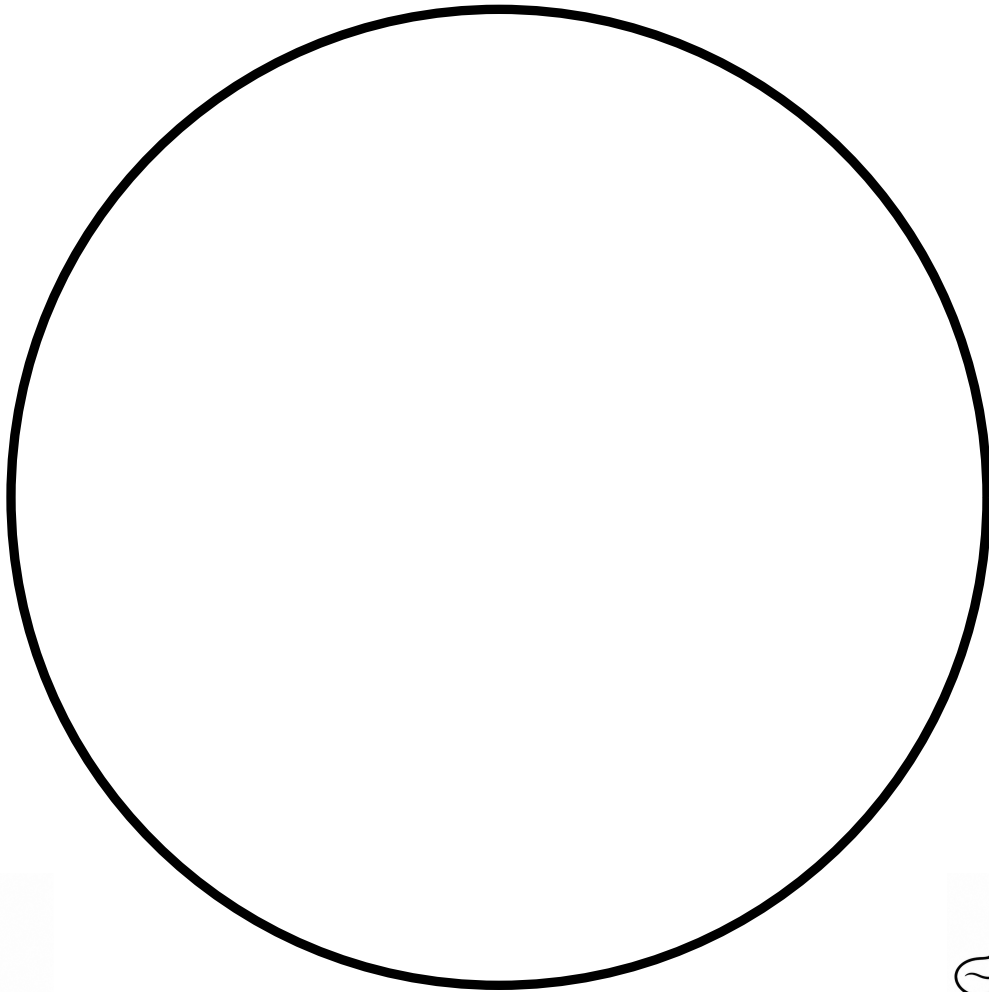

Can you find the other Pip? Now find the other sheep.

Grown-up play: Start by finding one matching pair together. Use a finger to point. Drawing a line is optional.

My first marks

Make dots, loops, or any marks you like.

Grown-up play: Point around the big circle with your baby. For a toddler who is ready, offer a chunky crayon and let the marks be their own.
